PAGE 47

GRIP LATEX SERIES.

The first-choice latex of Lloris and Szczęsny provides unmatched grip and high abrasion resistance for all weather conditions and pitch surfaces.*

ALL WEATHER & DURABILITY BOOST

3D latex dots on the inner side of this high-grip palm foam prevent from any slipping of the hand and improve the tactility for maximized ball control.*

CONTROL BOOST

Three-dimensional spikes on the surface of this professional match latex increase the friction between the glove and the ball for maximum grip and control.*

FRICTION BOOST

Trusted by Samir Handanovič and many other professional keepers, this exceptional match latex guarantees maximum grip and stickiness.*

ADHESION BOOST

GLUEPRINT.

By applying a special sticky print on the palm latex, tackiness and grip get enhanced exactly in those zones where it's needed the most. The positioning of the ink follows a precise pattern that is designed to cover exactly those areas of the palm that get in most contact with the ball when catching.

This match foam provides excellent grip in dry and especially wet weather and surface conditions thanks to its unique latex composition and our exclusive Hydrograin particles.*

WET WEATHER BOOST

This high-quality latex is the perfect combination of durability and grip for professional performances on artificial grass.*

DURABILITY BOOST

This premium match foam guarantees outstanding grip and reliable durability thanks to the addition of the largest possible amount of high-quality natural latex.*

GRIP BOOST

This very soft, high-volume latex offers great grip and outstanding cushioning against hard shots.*

IMPACT ABSORPTION BOOST

Great choice for hard ground and artificial grass thanks to its compressed latex with rough surface and high abrasion resistance.

DURABILITY BOOST

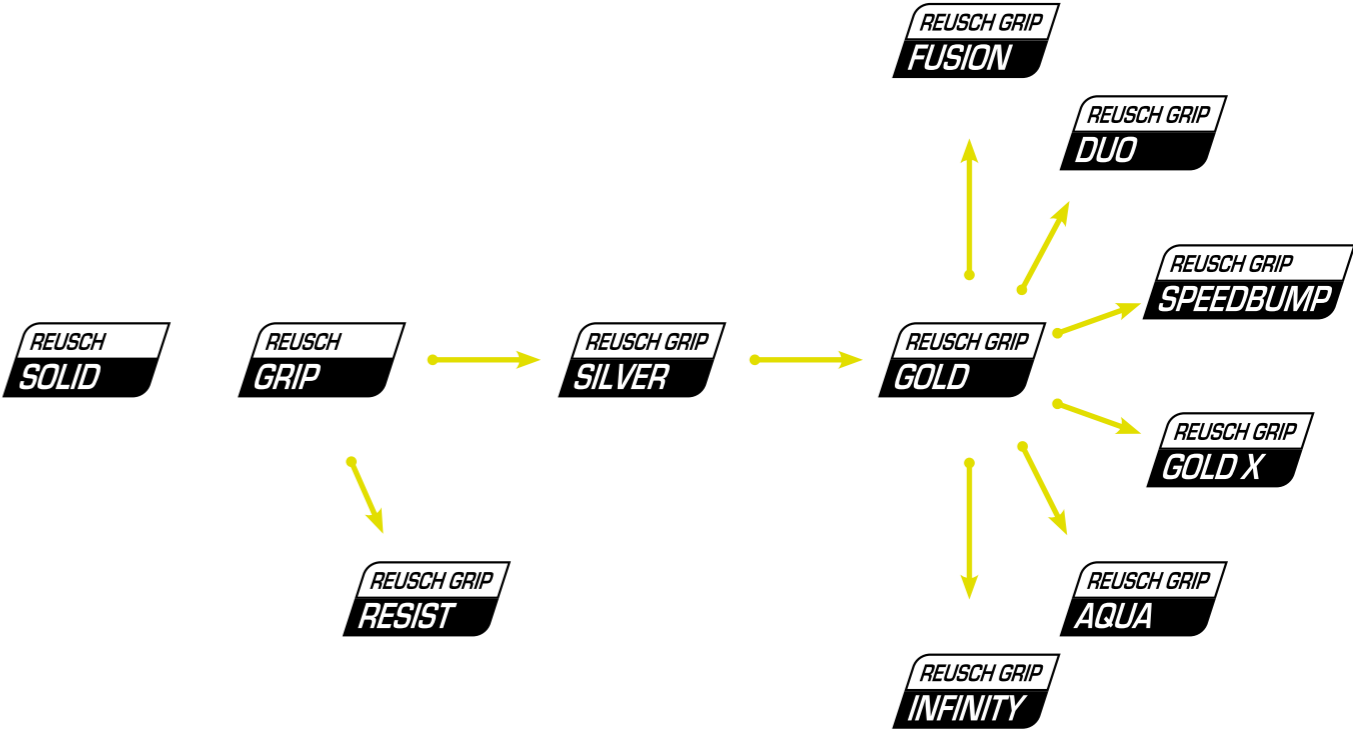

German-made palm foam that guarantees good grip and reliable durability thanks to a large proportion of high-quality natural latex.*

This highly durable palm foam is perfectly suited for recreational goalkeeping on all types of pitch surfaces.

THE POWER OF GRIP.

Special demands ask for unique solutions. With full focus on the goalkeepers and their different requirements on grip and durability, we present our range of Reusch-exclusive palm foams. The German-made Reusch Grip latex builds the base for a total of 11 unique latex mixtures. All foams have been developed using unique compositions, additives and finishings that boost the performance of the product and the keeper.

* LATEX MADE IN GERMANY

TECHNOLOGIES.

CUTS:

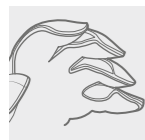

EVOLUTION NEGATIVE CUT

The latex is rolled around the fingertips for a tight fit, best ball control and maximized contact area. An inner-seam construction in the lower finger parts offers a tight, soft, flexible and ergonomic fit.

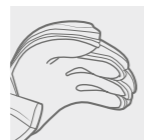

EVOLUTION CUT

The latex is seamlessly rolled around the fingertips for a precise fit, best ball control and maximized latex-to-ball contact area. An outer-seam construction in the lower finger parts offers an ergonomic fit, breathability, softness and flexibility.

EXPANSE CUT

Outer seams enlarge the palm surface of this flat cut and so increase the latex-to-ball contact area.

SLIM EXPANSE CUT

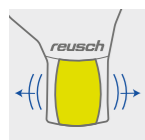

Exclusively used on the Duo styles. Negative stitching on the backhand offers a snug fit, regular cut on the palm side provides the needed room to maximize the effect of the Duo technology.

ROLL FINGER

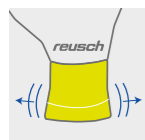

The latex is seamlessly rolled around the fingers, providing the largest possible catching area.

CUFF & CLOSURE:

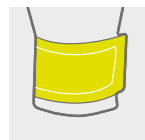

STEADY CUFF

In order to stabilize the wrist, provide the highest possible wearing comfort and create a smooth look, we extended the neoprene backhand all the way to the opening and merged it with a highly elastic textile on the inner wrist side.

ELASTIC CUFF

This well-proven closure based on highly elastic textile guarantees great fit and additional wrist support.

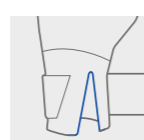

FULL STRAP

Our tried and tested fastening system all around the wrist for maximum stability and comfort.

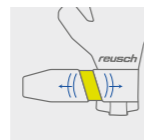

ASYMMETRIC CUFF

Extended cuff on the outer wrist side offers added protection when scratching the pitch surface on low dives. Elastic opening with highly stretchable lycra insert guarantees an easy entrance.

OPEN CUFF

A vertical cut on the inner side of the cuff makes entering the glove as easy as never before.

ELASTIC STRAP

Premium strap consisting of two pieces of latex and neoprene that are connected by a highly elastic textile insert. This special material-mix guarantees a highly precise and stable fastening.

TECHNOLOGIES.

FEATURES:

FREEGEL

Extremely light and durable punching zone made of silicone-like material, resulting in a very robust and at the same time highly flexible backhand.

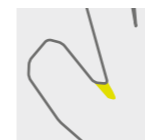

WRISTGUARD

An impact absorbing latex patch protects the wrist when falling on hard surfaces.

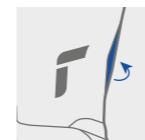

VENTILATION CHANNELS

Strategically placed small holes in the latex gussets guarantee constant ventilation and cool hands.

THUMB FLEX

A cut in the palm latex between thumb and index finger optimizes the flexibility of the thumb and the ergonomic shape of the glove.

SIDE WRAP

A slightly wrapped construction of the palm latex on the outer side of the hand provides a snug fit and a bigger catching area.

PULL LOOP

A slim textile loop on the inner side of the cuff ensures an easy entry into the glove.

FINGER SUPPORT

This reliable finger protection system based on five protection spines reduces the risk of hyperextension while keeping the glove soft and flexible.

PRESHAPED CONSTRUCTION

The anatomical shape of the glove and the slightly spread fingers enhance the glove's wearing comfort and support a natural catching position.

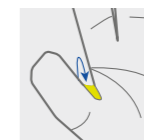

DURAGUARD

This latex patch offers extra abrasion resistance and durability in the most stressed zone of the palm.

AIRVENTSYSTEM

Highly breathable mesh material ensures optimum air circulation within the glove, providing maximum ventilation.

3D THUMB CROTCH

This rolled crotch construction between thumb and index finger avoids bothering seams and supports an ergonomic fit.

THUMB WRAP

The palm latex wraps around the thumb to enlarge the grip area and create an ergonomic shape.

PALM EMBOSSING

Embossments following the natural lines of the hand support the natural grasping movement.

REMOVABLE PROTECTION:

ORTHO-TEC

Based on five individually removable, lightweight and highly bendable protection spines, the Reusch exclusive Ortho-Tec™ system adapts to the natural movements of the fingers and blocks them before being pushed backwards into the injury zone.

REMOVABLE FINGER SUPPORT

This newly developed finger protection system with five individually removable protection spines reduces the risk of hyperextension while keeping the glove soft and flexible. A stretchable opening on the back-hand of the glove allows a quick and individual removal of each spine.

Neoprene strap

DUO Latex

2199 safety yellow / deep blue / deep blue

Trusted by pro keepers such as Napoli Number One Alex Meret. Exclusive Duo technology based on 3D latex dots on the inner side of the palm foam offers maximum ball control, tactility and impact absorption. A unique fit and look is provided by the special regular cut with negative stitched backhand and a continuous gusset construction in between the fingers. Renewed construction with slightly wrapped pinky finger side for even more precise fit. The Steady Cuff construction based on neoprene and an elasticated textile insert on the inner wrist side stabilizes the wrist and offers best wearing comfort.

REUSCH GRIP
GOLD X

The new Reusch Arrow Gold X features a second-skin fit and the very soft Gold X latex for professional grip in all weather conditions. The new print design made of hexagonal shapes improves the backhand flexibility. A shorter cuff provides lighter sensation and the revisited neoprene strap with elasticated textile insert makes the glove even more comfortable. Approved by Serie A champion Samir Handanovic this super elegant and at the same time fresh looking glove is a great choice.

ATTRAKT FREEGEL SPEEDBUMP ORTHO-TEC 52 70 078

The Attract Freegel SpeedBump Ortho-Tec with a new and attractive design. Three-dimensional spikes on the surface of this professional match latex increases the friction between the glove and the ball for maximum grip and control. With the Ortho-Tec spines reliable protection of all fingers is guaranteed. The Freegel application on the backhand makes the glove highly flexible without compromising the needed stability and control. The cuff construction offers perfect stabilization of the wrist and provides high comfort.

SIZES 7,5 - 11 (+12)
PACKAGING Blisterbag

PURE CONTACT SPEEDBUMP 52 70 000

Pure Contact SpeedBump guarantees a second-skin fit, maximum friction and unlimited ball control based on the tacky Reusch Grip Gold latex, the 3D SpeedBump technology guarantees a glue-like touch, maximum all-weather grip and reliable abrasion resistance. Compared to plain latex surfaces, the 3D-shape of the SpeedBump spikes boosts the friction between the glove and the ball for better grip and control. The Pure Contact glove construction features a neoprene FreeFlex backhand with snug fitting Evolution Negative Cut and a short cuff with integrated strap. Convince yourself with the new and attractive design.

ATTRAKT FREEGEL SPEEDBUMP 52 70 079

Maximum friction and unlimited control is guaranteed with the new Attract Freegel SpeedBump which is updated with a new and attractive design. Three-dimensional spikes on the surface of this professional match latex increases the friction between the glove and the ball for maximum grip and control. The Freegel silicone application on the backhand makes the glove highly flexible without renouncing on the needed stability and control. The cuff construction offers perfect stabilization of the wrist, provides the highest possible wearing comfort and creates a smooth and modern look. The elastic strap allows a very precise fastening.

PACKAGING Blisterbag

ATTRAKT SPEEDBUMP 52 70 039

High-quality goalkeeper glove with a revolutionary latex technology and a new and attractive design. The SpeedBump palm foam offers maximum friction and unlimited control. Based on the tacky Reusch Grip Gold latex, this 3D-technology guarantees a glue-like touch, maximum all-weather grip and reliable abrasion resistance. Compared to plain latex surfaces, the 3D-shape of the SpeedBump spikes boosts the friction between the glove and the ball for best grip and control. The latex backhand on a mesh base feels light and at the same time supportive.

REUSCH GRIP
GOLD X

GluePrint technology and Ortho-Tec technology - a unique combination! The Attrakt Gold X Glue-Print Ortho-Tec is based on the Reusch Grip Gold X applying a special sticky print on the palm latex. Due to this the tackiness and grip get enhanced exactly in those zones where it is needed the most. The positioning of the ink follows a precise pattern that is designed to cover exactly those areas of the palm that get in most contact with the ball when catching. This is reinforced by the Evolution Cut which is characterized by a large catching area and high wearing comfort which provides a direct and tight fit for a super ball control. The Ortho-Tec finger protection with five removable spines guarantees reliable protection and flexibility of all fingers. The textile backhand with latex punching zone keeps this snug fitting model not only soft and highly comfortable, but as well very breathable.

KEEPING THE PROTECTION, COMFORT & STYLE FACTOR HIGH.

Characterized by intelligent protection elements, modern fits and durable materials, the high-quality Reusch Goalkeeper Apparel Line is perfectly suited for all training and match situations. A revised range of functional goalkeeper underwear offers must-have padded apparel pieces and highly functional unpadded first layers.

MMS™

MOISTURE MANAGEMENT SYSTEM marks a terminology within functional apparel from Reusch. It's the common purpose of all MMS™ technologies. MMS™ is divided into following special fields:

MMS™ COOL: is integrated in shirts that have to wick away much moisture from the inside to the outside. Its focus is to keep the body comfortably cool even in extreme conditions.

MMS™ COMPRESSION: is used in shirts and shorts that fit tightly to the skin. The special run of the seams and the selection of appropriate material cause an effect of muscle compression, which prevents them from getting tired quickly.

MMS™ THERMO: is mostly included in neoprene styles. Especially in winter or in wet conditions it keeps the body warm to avoid muscle strains.

GLOVE LOVE.

7 STEPS. TO TREAT GOALKEEPER GLOVES RIGHT:

As highly technological and delicate products, goalkeeper gloves deserve and need special attention. Following some basic rules when choosing, playing, cleaning and storing the gloves will help maximizing their performance and durability.

1. CHOOSE THE RIGHT GLOVES FOR YOUR NEEDS

- Take the gloves that are made for the type of surface you regularly play on and the weather conditions you will face the most.
- Select the palm foam that best corresponds to your needs. Even though all Reusch palms are made of high-quality materials, they differ in terms of grip, cushioning and durability, depending on the material composition of the foam.
- Check the additional features of the glove that can help you improving your performance.
- Decide whether you want finger protection or not.
- Choose your preferred cut.
- Pick the right size.

2. WASH BEFORE FIRST USE

- Never forget about this! In order to eliminate any remaining soap necessarily used in the production process, the gloves must be cleaned with warm water before first using them.
- Only after this procedure the gloves attain their fullest grip properties.

3. MOISTEN BEFORE PLAYING

- Rinse Aqua gloves with warm water (preferably between 35–40°C) one to two hours before using them, in order to activate the Hydrograins™ inside the palm foam.
- Moisten all types of goalkeeper gloves before playing.
- Keep the gloves in slightly wet condition during use.

4. CLEAN AFTER PLAYING

- Wash the gloves with warm water (around 35°C) after playing in order to eliminate dirt that decreases the grip properties of the gloves.
- Do not use aggressive solvents or harsh cleaners.
- Wash by hand and not in the washing machine.
- For a perfectly clean glove, additionally use special glove wash.

5. DRY SLOWLY

- Let the gloves dry slowly by air.
- Keep away from radiators or other sources of direct heat.

6. STORE IN APPROPRIATE LOCATION

- Do not expose gloves to UV radiation like intense sun light or light from fluorescent tubes, as this can impair the grip and durability of the latex layer.
- Store the gloves in a cool, dark and dry place.
- Goalie bags are the perfect storage items for your gloves.

7. USE UNTIL COMPLETELY WORN-OUT

- Very soft palm foams can show first signs of usage already after a small period of use.
- The performance and the grip properties of the glove remain untouched until the palm is totally worn out.

ALL EYES ON THE VIRTUAL SPACES.

B2B

OUR SERVICE PORTAL IS AN ONLINE SHOP FOR BUSINESS CUSTOMERS.

Unlike telephone, e-mail or fax orders, the platform immediately offers an availability overview. The system is connected to our ERP system and is updated every 15 minutes. Any dealer with an active access can order around the clock.

- Order at any time of day or night, regardless of your or our office hours
- Simple overview of the available sizes and colours
- Modern, simple and fast processing - no waiting times on the phone
- Print option and electronic archiving of all orders

GET YOUR ACCESS NOW:

Either contact your field representative (service@reusch.com), or request access directly through <https://b2b.reusch.com>. You will receive your access data within 24 hours.

VIRTUAL SHOWROOM

CHALLENGING TIMES REQUIRE INNOVATIVE SOLUTIONS.

With the newly developed Reusch Virtual Showroom we provide our partners with maximum content and all needed assets of our goalkeeping collection GK 22. The platform offers details, pictures and descriptions of each single article as well as product and information videos, key campaign visuals and a download section including presentations, catalogues and simply all relevant documents for clients, sales force and business partners.

GET YOUR ACCESS FROM YOUR REUSCH CONTACT.
